

Free Phone Lead Alerts

One-page Web Push enrollment guide. Carrier SMS remains disabled.

Before you start

Use the approved authenticated browser. On iPhone or iPad, add AskMagicMike.com to the Home Screen and open the installed app. Browser permission requires the device owner and cannot be bypassed remotely.

Enroll one device

- 1 Open www.askmagicmike.com/admin/notifications/phone.
- 2 Enter a recognizable device name without a phone number or private identifier.
- 3 Choose the approved role: Mike is primary; Brandon is copy.
- 4 Allow notifications in the browser prompt.
- 5 Send one [TEST] push and confirm the lock screen contains no contact details.
- 6 Open the deep link and confirm Lead Center authentication is still required.
- 7 Re-enroll once to verify duplicate handling; revoke and confirm delivery stops.

Never copy subscription endpoints, cryptographic keys, or browser sessions into chat or shared files.
