

ASK MAGIC MIKE

Brandon Web Push Enrollment

Physical-device enrollment guide for the administrator copy role

STATUS PHYSICAL ACTION PENDING	DATE August 15, 2026	DATA No genuine customer PII
--	--------------------------------	--

Technical state: ready. Device state: not enrolled.

Open <https://www.askmagicmike.com/admin/notifications/phone> while signed in as Brandon. On iPhone/iPad, add the site to the Home Screen and open it there.

Enter a non-sensitive device label, select the copy role, grant the browser's notification permission, and send one clearly labeled [TEST] push. Confirm the deep link returns to the authenticated Lead Center, duplicate enrollment is idempotent, revocation stops delivery, and re-enroll only if needed.

Never copy the Push endpoint or keys into chat, screenshots, or shared records.

The browser permission cannot and must not be bypassed remotely.
